# Cost

If your congregation has signed and returned its Covenant Agreement, these courses are **FREE!** If not, each can be purchased for \$250 per course or \$50 for an individual member. The Institute incurs significant expenses in getting the courses taught and delivered, so we can only give the courses away to those congregations that have put as a line item in their annual budget.

There is so much happening at the Institute of Lutheran Theology, and we are so blessed to be able to serve our Lord by offering quality educational opportunities for future pastors, teachers, leaders, and all Christians. We are particularly excited about our courses for this next semester. I believe that these six, six week (six hour) courses are exciting, edgy, and will be a welcome addition to your congregational educational program. Circle January 18th as the date courses begin. Choose among the following or take them all:
